Unbelievable. I thought they had already awarded us the grant subject to our adoption of a resolution of local support?

Councilmembers –

Public Works was notified by MTC of the following regarding our request for the Ivy Drive \$552,000 grant:

Subject: FW: FMS project declined: Ivy Drive Pavement Rehabilitation
Title: Ivy Drive Pavement Rehabilitation Administrator

Comments: Orinda does not have HCD certified housing element in its general plan. Once this is achieved please resubmit application in FMS for MTC review.

I have a call into MTC's Deputy Director to see if as a worst case scenario, we can have the funds held in a reserve, as a placeholder for Orinda's project until our Housing Element is certified. The Deputy Director is out of the office until Friday so I will not hear back from her for a few days.

Please do not reply all. Thanks.
